Description

1983 MOTOMAR 33 FLY WITH 2X270 AIFO

IN THE LAST 10 YEARS MANY REFITTING WORKS HAVE BEEN CARRIED OUT FOR THE INTERIORS (CEILINGS AND WOOD FINISHES, THE SOFA AND THE KITCHEN)

THE BOAT LOOKS VERY GOOD

USED 2 MONTHS IN SUMMER AND THEN WINTER STORAGE INDOORS

Motomar construction relied on companies specialized in the production of artifacts such as the Agostini Shipyard or CIGALA & BERTINETTI. The lamination was made manually of laminate full of glass thicknesses and orthophthalic polyester resin.

The reinforcement structure is of a mixed type with longitudinal and transverse "omega" boxes of reassuring dimensions.

Talking about defects is difficult as the designer's choices can at the same time meet or disappoint expectations.

Navigation equipment:

2 Depth Sounder (PIRANHA MAX 10), GPS (GARMIN GPS MAP 172 C), Autopilot (NAVICONTROL AP 303 GOLD).

Staging and technical:

Engine Alarm, Bilge Alarm, Water pressure pump, 5 Batteries, Deck Shower, Hydraulic Flaps, Crane, Gangway (IDRAULICA), Platform, Automatic Bilge Pump,
