Hull width 3,00 mt

Width in accordance with ISO standards 3,90 mt

Tubular diameter 67 cm

Tubular compartments 8 Tubular polyester ORCA' Pennel & Flipo high tenacity 1670 dtex

Streamlined and captivating in its aesthetic lines, the Pacific 36 represents the natural evolution of the " Pacific " series.

the large side windows give it a modern and sporty design, hiding its generous deck structure from view.

This boat with its 9.99 meters in length makes the most of the homologation limit of the boat category,

its dimensions do not prevent it from giving unexpected performance by touching 40 knots with the top engines,

reaching already at 9 knots the glide, giving a cruising speed in total comfort of more than 30 knots.

Like the whole "Pacific" series, it is also characterized by the use of semitubulars, in this model even dissected with 4 separate air chambers,
