Description

BEAUTIFUL AMER 86

in excellent condition both aesthetically and mechanically

2018: new Jacuzzi on the Fly Bridge, new sunbathing cushions, new teak floor on the upper deck.

AMER 86 from an external lay-out studied by Profilo Design and the interiors designed by the shipyard, Andrea Bacigalupo has created an absolutely new mold in every element, from the hull, to the deck, up to the superstructures, using vinylester resins subjected to a particular antiosmosis treatment, able to guarantee a finished product of the highest quality and theoretically unlimited duration over time.

All on a soft, stable and safe hull at all speeds and in all weather conditions. The studies of the living work of the Amer 86 have not been directed towards the search for exasperated performance, so much so that the hull project is designed to reach maximum speeds of around 30 knots, as well as to guarantee the maximum in terms of safety, comfort and elegance, without forgetting the privacy that is essential to ensure high-level cruises.

Navigation equipment:

Rudder angle indicator, Radar Antenna, Compass (Riviera), On-Board Computer, Chain counter, Display, Depth Sounder (Furuno LS6000), GPS (Furuno GP31), Intercom, Autopilot (Simrad AP22), Chartplotter (Navionics- Philips), Plotter with GPS antenna, Radar (Simrad RA41), VHF Radio (Shipmate RS8400), Co-pilot seat,
