THE HISTORY

In 1988, a group of renowned professionals in the nautical sector decided to join forces and experience to found the Turmarine shipyard.

Their goal was to create a range of motorized pleasure boats of the highest quality, power and comfort.

In November 2000 the new facilities were inaugurated and were subsequently expanded in 2003.

In this way we have created one of the most modern shipyards that allows us to build, fulfilling the highest level of demand, the range of boats that started our company.

Navigation equipment:

Rudder angle indicator, Display, 2 GPS (cartografico), Autopilot (Raymarine), Plotter with GPS antenna, VHF Radio (Raymarine).

Staging and technical:
