

SALE NEW

delta powerboats 290 sw

## Description

Delta 290 is the original fuel-efficient sidewalk pilothouse from Delta Powerboats. Re-launched 2016 as a further development of the successful Delta 29 and conceived as a high-performance escort boat providing comfort and safety in the most uncomfortable weather conditions. The sidewalk design promotes protected passage between the stern and the bow of the boat while lending extra width to the interior. Inside the house the driver has superb visibility from the central steering position, there is plenty of seating for passengers and the possibility to overnight in the beamy forward cabin.
