sessa marine C 68 new

Description

Elegance and strength are the elements that distinguish it. The interiors, connoted by a new dimension of livability, are conceived as domestic scenarios without sacrificing the marine spirit. Boating and design are combined thanks to the use of structures able to evoke everyday life such as the kitchen and the beautiful illuminated cave à vin. Light becomes a supporting element throughout the boat and, especially, in the master cabin, the real strength of this boat.
