Description

The Azimut Magellano series is a milestone of innovation with a modern and timeless character, designed for long-range sailing.

A glance is enough to feel a thrill, immediately feel a great desire to pack and set off for some remote place, away from the daily chaos.

Slow night navigations, great autonomy and a pleasure that finds full satisfaction more during the journey than on arrival. The destination can be secondary, preferably very far away.

A boat with strong "green" connotations with a semi-displacement hull whose name, inspired by the famous Portuguese navigator, evokes the idea of travel, of long stays on board.

Boats from first to last designed and built to sail with a comfort that is difficult to imitate for a planing hull.
