Description

The Marex 440 is a new generation of cruiser with contemporary design lines and numerous innovations. With a length of 13.70 meters and a maximum beam of 4.27 meters, this new boat is destined to become the brand's flagship.

The idea is to create a family boat with a focus on easy living and have the cruising experience of a much larger ship.

The largest kitchen in its class, the beach club near the water, two bathrooms, and a washing machine are examples of this idea.

The Marex 440 Gourmet Cruiser is the result of a collaboration between Marex's in-house design team and Slovenian studio VOM Creations Yacht Design.

The naval architecture was provided by Nikl design and Engineering by Alpha Creations.

The model has the quickest and easiest way to close the open cockpit deck, existing on the market.

The curtains are hidden in the arch of the license plate and slide like a curtain. The canopy can be secured with only one socket. No buttons or elastic bands. From open boat to fully closed boat in less than a minute!

The cockpit has a dining area for up to 10 guests. The table can be lowered, creating a space for a large sundeck/berth. The optional swivel chairs can also be adjusted in height, depending on use with the bar or table.

The 440 has pilot sliding doors and ports. This allows freedom of movement for
