mochi craft Mochi 51 dolphin

Description

Elegant and modern, it takes up the lines and atmosphere that reigned in the early forties, when the famous Lobster boats, boats dedicated to lobster fishing, were born on the coasts of New England.

Dolphin 51', designed by the pencil of Architect Brunello Acampora of Studio Victory Design, combines the harmonious and high-performance shapes of the hull with the marine taste of the interiors, in which the typical essence of the Dolphin, teak, is combined with innovative and contemporary décor and design solutions. From the cockpit, with a large sundeck and tender garage below, you enter the saloon through a sliding glass door. The living room is a single environment, organized into two areas, living, dining and control area, while the kitchen is a separate room. At the bow, on the port side, is the command station. The lower deck is the subject of a skilful reorganization of the spaces- The master cabin is in the bow with a peninsula bed, with a dedicated bathroom, the guest cabin with two beds with its bathroom. In addition to the interior layout, the solutions also involve the large space of the cockpit and the sundeck in the bow.

TRADE-INS WITH BOATS OF MORE THAN 20 METERS ARE EVALUATED.

INTERIORS:
