astondoa 377 coupè

Description

Astondoa demonstrates the versatility of its customization with its second model in the exclusive "Coupé" line of cruiser yachts, the 377. With the success of the first 655 Coupe, customers were looking for a more compact version for day trips, but Astondoa delivered a sport boat with yacht-like amenities.

Vanguard

The hull design of the Astondoa 377 Coupé is clean, with aerodynamic angles. The bold inverted bow cuts through the rough water and is complemented by the sculpted sides of the hull. The three-dimensional hull emphasizes the elongated volume of the boat, and its width of 11'7" gives it substance, sturdiness, and stability.

The blue whale, the largest mammal on earth, which moves gracefully at a speed of 17 knots, inspired the modern design, tracing the silhouette of the whale.
