astondoa As5

Description

SPORTY AESTHETICS MADE WITH ASTONDOA'S ARTISANAL TECHNIQUE

The As5 is the result of the combination of the new contemporary design - developed by ASTONDOA for this range-, style and "color and finishes" with the timeless craftsmanship and production that distinguishes this centenary brand. The new yacht inherits the personality of its predecessor to satisfy a sailor looking for luxury, sporty character and contemporary design in the 57-foot length segment.

Once again, the shipyard's design team excels at successfully adapting all the features of a large yacht onto a mid-length cruise ship.

But the As5 also claims its own personality, combining the elegance of its aesthetics with sporty details, inspired by the automotive sector and the best supercars with which the Shipyard shares an innovative spirit. Thus, by fusing aerodynamics with design to

To create beautiful shapes and generous spaces, the As5 was born as a unique yacht.

Versatile and highly customizable

Unique, like every ASTONDOA yacht, the As5 is today the ultimate exponent of customization, offering multiple configurations to satisfy the owner. You can opt for a sportier version without a hard top, or with it if the customer favors elegance and practicality.
