Description

UNIQUE IN ITS RANGE

The new 32 Lounge is a beautiful Walk Around by Macan Boats, a unique model in its range of 10 meters for power, style and comfort with spaces designed to promote maximum livability on board comfortably accommodating up to 12 people, obtained by enhancing the relaxation areas aft with a large sundeck, bow with an integrated sitting area and with a comfortable lounge behind the helm station that can also be transformed into a relaxation area.

The pure fun is in its surprising performance thanks to the development of the double step hull characteristic of Macan Boats and the double 350 hp engine, which push the 32 Lounge to over 45 knots, but if you prefer thrilling performance the reliability of this hull with more powerful engines can allow you to sail over 55 knots in the fast version.

The 32 Lounge can be completely customized in terms of layout style, interiors, upholstery and their color scheme. The shallow draft increases access to small ports or berths, making it ideal for charter as well.

A luxury design with attention to every detail and accessory, handcrafted with the attention, precision and elegance typical of Made in Italy.
