## Description

"A 14-metre yacht with enormous habitability, to live on a boat and travel thousands of miles around the world.

It is evident that the designers of the Lagoon catamarans have invested heavily in improving the 440 model, creating a 45-footer that is much more significant and much safer, as well as being more luxurious and comfortable. The flybridge around which the entire deck structure is centered has been redesigned, retaining the original idea of the previous model, but offering improvements.

Another important step forward is that the deck, cockpit, engine controls, manoeuvring instruments and the new saloon at the front of the upper deck can now be accessed more easily and in seconds. All this is possible thanks to the various ladders incorporated directly into the cockpit, on the left and right. It's not only a better use of space, but also a much better approach from a safety point of view."

OWNER'S VERSION, EXCELLENT GENERAL CONDITION, + AGENCY FEES.
