Description

This newest member of the Lagoon family has style to spare and a strong personality.

Maintaining a family atmosphere and preserving the main features of the latest generation of Lagoons, the 42 reveals at the same time new horizons: a gentle evolution and a new "organic" approach to the search for harmony between man and his spaces.

An elegant silhouette characterized by fluid curves that, thanks to the acceleration of the lines perceptible in the beams and in the new design of the deckhouse, underline the dynamic and sporty character of this new model.

The influence of organic architecture resonates in the interior volumes. Graceful details in moulded wood underline the gentle curves of the interior design, carefully designed by the Nauta studio. Once again, the Italian design studio manages to perfectly marry elegance and functionality.
