

SALE NEW

galeon 440 fly

Description

The sleek exterior marks another collaboration with the esteemed Tony Castro Design Studio and is instantly recognizable as it follows the trends set by the fourth generation of Galeon yachts. A unique combination of a dynamic silhouette with sporty accents is complemented by the large windows on both decks that enliven the interior. A clear focus has been placed on the practicality and versatility of all exterior areas to include all passengers and allow easy access.

The upper deck features a helm station with a sofa on the port side for a companion, with the main rest area moved back. The L-shaped sofa wraps around the elongated table and comfortably seats six people. A wet bar will hold refreshments and help keep things tidy. The main deck houses two separate recreation areas with the bow easily accessible from the starboard sliding doors next to the helm. Guests can choose to support the foldable bimini and forward-facing seat for added protection from the elements.

The cockpit allows boarding from all sides thanks to the full-size hydraulic aft platform and Beach Mode with semi-glazed panels. Lower both sides to extend the usable space when mooring and invite your guests to activities such as diving, fishing or sunbathing – exciting! The bathing platform acts as an elevator for all your water toys and allows easy access to the stern-facing grill area.

Inside, there is a classic layout with the sleeping area set back, divided from the cockpit only by sliding glass doors. The galley and wheelhouse are moved forward with the cabins located on the lower deck.
