galeon 560 fly

Description

The 560 FLY bridges the gap in Galeon's portfolio between the award-winning 500 Series and the highly innovative 640 and 650 models. The long-awaited premiere is expected to respond directly to the needs of customers who have appreciated the technical prowess of the 500 FLY but want more space on board and the bespoke luxury of the 640/650 models while maintaining manageable dimensions.

The exterior is highlighted by the abundance of space on both decks and a plethora of windows that promise well-lit interiors. On the upper deck, guests will find two U-shaped, opposite rest and dining areas – combine them for the perfect outdoor dining experience! Up front, find a seating area and the top helm station with the wet bar and grill moved back. The large cantilevered area is equipped with uninterrupted space for leisure and activities and can be occupied by two freestanding sun loungers. This flexible approach to space distribution allows you to rest during the day and entertain guests in the evening.

THE 560 FLY AIMS TO MAINTAIN THE FRAGILE BALANCE BETWEEN PRACTICALITY AND INTERIOR VOLUME, PUSHING THE BOUNDARIES OF HIGH-END DESIGN AND FINISH.

The main deck features everyone's favorite Beach Mode which greatly increases the usable area of the cockpit and helps it blend seamlessly with the saloon and even serve refreshments at the port and starboard bars. The bow area is divided between the sundeck and a bench with an adequate backrest, useful if you want to enjoy an exciting navigation in the bow. A large hydraulic platform helps raise the water toys and allows easy access to the water and the crew crew double
