

SALE NEW

galeon 800 fly

Description

Thanks to many years of experience, passed down in our company from generation to generation, we have created the Galeon 800 FLY, which combines a sporty silhouette and impressive performance with a sense of space and luxury previously reserved only for megayachts. The subtle design that is noticeable at first glance, expressed in soft lines and rounded structural elements, we owe it to Tony Castro's unparalleled design masters. In addition, the advanced navigation electronics and the latest technologies used on this fourth-generation yacht ensure the safety and comfort of all passengers.

Carbon fiber structure elements made it possible to increase the surface area of the upper deck, so we can offer there not only a double helm station, a fully equipped bar, a comfortable sunbathing area, four tables that can be adapted to the needs of guests, but also two separate, huge, semicircular sofas between which we very elegantly integrated the hot tub. On the main deck we can enjoy the interiors reminiscent of the best apartments. A richly equipped kitchen with a fine kitchen island is an eye-catcher. Next to the double helm station there is a comfortable sofa with a coffee table and, right next to it, a majestic table for 8 people. The tastefully furnished living room offers, in addition to elegant sofas that invite you to spend more time comfortably on them, also unusually large windows, pull-out TV,

THANKS TO OUR WIDE RANGE OF OPTIONS, COLORS AND MATERIALS, INCLUDING EXOTIC ONES, EACH GALEON 800 FLY CAN BE FULLY ADAPTED TO ALL YOUR NEEDS.

The aft relaxation area will impress everyone, as it offers not only plenty of
