Description

For Sale: 2007 Sealine T52 Motor Yacht – Pure British Elegance on the Water

Welcome aboard the Sealine T52, a masterpiece of British shipbuilding built in 2007.

Embodying luxury, performance and sophistication, this motor yacht offers a unique opportunity to travel on the water in style.

Due to the low clearance height, bridge crossings are not a problem in most inland waterways.

The complete underwater hull was renewed in 2023 (sandblasted, provided with 7 layers of epoxy primer and new antifouling, documentation and invoices are available.), and the hull and superstructure were completely polished.

The machines, as well as the ONAN generator, had the last service in 2023.

The equipment is extensive, with 2x air conditioning/heating, as well as additionally 2x diesel heaters, YACHTCONTROLLER, elctr. Circuit, dishwasher, washing machine, 3x fridge, etc.

The appealing and harmonious interior makes the yacht look shipy and yet modern.

The Sealine T52 has generous space on the Fly and this 3-cabin version with 2 large bathrooms with shower and eltr. WC (1x owner's cabin with French bed, 1x guest cabin with double bed, as well as 1x with 2 adjacent single berths) is also well suited for families.
