Description

The Prestige 500 Fly motor yacht is a luxury boat known for its refined elegance, first-class workmanship and its ability to impress both in the open sea and in port. Here is a description of this type of boat:

The Prestige 500 Fly is a motor yacht with a flybridge, which means that she has a raised platform above the main deck that offers stunning views of the sea and the surrounding area. This additional space is often used as a lounge or sundeck and adds to the spacious layout and luxurious ambience of the boat.

With a typical length of around 50 feet (about 15 meters), the Prestige 500 Fly offers ample space for a larger group of passengers. The design focuses on first-class materials, high-quality workmanship and modern lines that look both contemporary and timeless.

The main deck is usually designed to allow for a seamless transition between indoor and outdoor spaces. A spacious saloon with living and dining area, a well-equipped galley (kitchen) and a comfortable seating arrangement are typical features of this deck. Large picture windows provide excellent views and let in plenty of natural light.

The cabins are carefully designed to provide comfort and privacy. The Prestige 500 Fly typically offers multiple cabins, including a master cabin with en-suite bathrooms and possibly additional guest cabins with shared or private bathrooms.

The flybridge is an outstanding feature of this type of boat. Not only will you find
