sanlorenzo S186

4 900 000 € All Tax Included

Description

The Sanlorenzo 86 is the result of the direct collaboration between the Sanlorenzo Shipyard and Officina Italiana Design, which has introduced multiple innovations and shaped new shapes on this model, always with the utmost respect for Sanlorenzo's DNA.

The result of decades of experience, the SL86 is able to combine tradition and innovation; The clean and elegant lines, the balance of the volumes and the attention to detail become the strengths of this project which, combined with the choice of fine materials, offer an unparalleled level of customization, unique in its category.

The bulwark is cut to allow light to enter through the large windows and allow guests to enjoy the sea view while sitting comfortably on the sofas in the living room.

The beautiful staircase leading to the fly-bridge has steps inserted between two sheets of glass that seem to float in the air, a solution defined by the most authoritative design studios as "a real work of art".

The dining area, also located on the main deck, finds the crystal table with Dove Grey leather seats right next to the beautiful side window, a particularly comfortable, intimate space dedicated to accommodating 8 people.

The galley on the same deck, with access from the saloon, wheelhouse and side deck, is equipped with all Miele accessories and appliances.

The helm station is beautiful and elegant, with all the instrumentation installed
