Description

1017 GT

THE GENTLEMEN'S RACE

The award-winning Gentlemen's racer 1017 GT is the heart of the Frausher brand and offers everything you need for a full day of fun on the water: style, performance, durability and ease of use.

Fast, stable, responsive, the Frausher 1017 GT is a boat that manages to combine retro lines with a contemporary and very elegant design, not surprisingly the shipyard defines it as a "gentlemen racer".

The hull is double step and has a very deep V that reaches the stern with a dead rise of 23 °, data that promise good seaworthiness.

The blanket is a small masterpiece of design and functionality. Starting from the stern bridge a comfortable teak walkway allows us to cross the two aft sundecks without balancing and then easily reach the cockpit. Here we find two large seats and the two armchairs reserved for the pilot and his second, are all comfortable and, above all, safe, as is appropriate for a boat that passes 50 knots. From the windshield to the bow an expanse of fine teak, interrupted only by the two portholes flush with the cabin, confirms the elegance of this boat.

The cabin, considering that we are on a motorboat, amazes for size. The dinette below deck is convertible and allows two people to sleep comfortably, the kitchenette and the bathroom with shower make this motorboat also usable for short-range cruises.
