

SALE PRE OWNED

pershing 90

Description

Great conditions. Pleasure. Length mt. 23,98

The Pershing 90' is therefore characterized by its undeniable sporting disposition, speed expressed by a specially designed hull, the presence on board of almost 4,900 horses and the surface elipads that are tasked with unloading all this power, which translated into knots makes the 44 in principle. Performance extrinsed in the forms of this superyacht through a dosing mix of tense lines, with the forward momentum also emphasized by the trend of the dark band that cuts the walls, and soft curves, which characterize the cuolino and its pillars. Again everything is rendered with more vigour using the dark chromaticism of the glazed surfaces in contrast to the white of the structure. As a hallmark in the side view, as on the 115', there are also the three large vertical windows on the walls, which there suggest the presence of the owner's cabin, normally the most spacious on board, and for this place placed where the there is a greater glow, but it is also the lower deck compartment that is granted more brightness.

Also with regard to the top of the hard top, the 90' follows the path taken with the 115', proposing a small fly bridge, devoid of external government station but mostly dedicated to sundeck - with what is in the cockpit and the one at the bow , is the third on board - accompanied by a sofa placed at the extreme stern.

We pass from this fly area directly into the lounge, descending a transparent steel and plexiglass staircase, undoubtedly beautiful, so as to be a furnishing element, however low impact - especially emphasized by the absence of handrails - and however well integrated with the minimalist style, well-groomed
