azimut Grande 32 metri

TimoneYachts
SINCE 1984

Description

Shaped by an ambitious vision to forge new traditions, the Azimut Grande 32M is an innovative marvel of naval architecture. Compelling and charismatic lines boldly converse with the sea, while Azimut's growing low emission philosophy further embraces the use of carbon throughout. Lavish interiors and tranquil colors encompass a fluid ideology, dedicating a special chapter to holistic wellbeing on board.

The masterful play of lines and curves gives rise to a natural tension, which runs from the bow to the extreme stern, dressing the abundant interior volumes with a gritty

and dynamic exterior design. The large full-height windows rise from the hull to the superstructure, further lightening the yacht's appearance while expanding the sense

of space inside.

The Azimut Grande 32 Metri is a bold and deliberate break away from the past with its graceful lines concealing avant-garde features previously unheard of in the category. Generous interior volumes are deceptively disguised by Stefano Righini's powerful exterior lines which sweep imperiously towards the stern. A touch of edgy, sporty character is added by the large full-height windows which rise up from the hull and extend into the superstructure. With its side garage accommodating a tender and jet ski, two large beach clubs in the stern and foredeck, the Azimut Grande 32 Metri is a serious wide-body megayacht.
