azimut Grande 36m

Description

With her original design and modern ethos, the Azimut Grande 36M is a superyacht that synthesizes cutting-edge style and attitude. From the unprecedented semi-walkaround upper deck inspiring freedom of movement to the fully retractable side windows posing a special gateway to the sea, all elements contribute to visually blend interior and exterior spaces. A barrierless lifestyle naturally blurs the boundaries between onboard pleasure and oceanic greatness.

Designed by the skilled hand of Alberto Mancini, the Grande 36M is instantly recognizable by her elongated lines and clean surfaces. The exterior design matches the superyacht's substantial size with a sportive stance, aided in breaking up the volumes by the sculpture of the hull sides.

With the Grande 36M, Azimut introduces the first semi-walkaround upper deck that runs flush from the stern to almost the extreme bow, offering unprecedented freedom of movement. The side windows are fully retractable, joining the skylounge with the aft terrace to create an immense barrierless area. Wrapping around to the bow, we come to a whirlpool tub made entirely of glass and a sunbathing area equipped with every comfort.

Striving to realize her owner's dreams, the Grande 36M proposes unprecedented personalization at every level. Even the number of levels may be configured to have a sleek coupe or a sundeck as the cherry on top.

The size of the skylounge gives the freedom to appoint it according to the
