## pardo yachts Endurance 60

## Description

Pardo Endurance 60 is the first model in a new range that already embodies its elegant, sophisticated and safe yacht philosophy in the name. Always with contemporary style, class, design and luxury: distinctive signs of every Pardo Yachts boat.

He interprets a new design philosophy. The keystone is its performance and travel-oriented design, without sacrificing safety and low consumption. The result is a yacht built around the needs of the owner, his ambition to use the boat for long periods and in maximum comfort making the most of all the spaces. Maximum attention has been given to the liveability of the main deck. The outdoor space of the Endurance 60 is equipped with two foldable side terraces that contribute to creating a real platform on the sea: a total area of 35 square meters dedicated to relaxation. The aft area is completed by a height-adjustable platform with hydraulic system, which makes the recovery and storage of the tender practical.

Large relaxing cushions, table and chairs to enjoy a cocktail, comfort and space of the passers-by typical of the open walkaround range. The aft terrace is synonymous with open air perfection, between discreet luxury and comfort.

The flybridge, tailor-made to the owner's equipment needs, is a real novelty. It is designed with the emotions of the owner and his guests in the navigation in thought. Rring with sofas and sundecks, you can also get a second full control area, in addition to the internal one, and the fridge compartment.

The Endurance 60 is designed to ensure maximum safety and reduced fuel
