Description

Uniesse Marine was founded in 1990 by the imagination and enthusiasm of two brothers, Daniello and Giuseppe Scaburri, who share a passion for the sea. "But not only from enthusiasm and passion," say the Scaburri brothers, "but also from the certainty that our dreams could come true. We had clear ideas about the type of boats we wanted to make: comfortable and comfortable yachts but very seaworthy, dedicated to true enthusiasts. And we had a clear idea of how to make them. The facts have proved us right, we have achieved good results, the satisfaction of our customers is a good confirmation. But we are not satisfied, nor do we consider ourselves to have arrived. The sea is big, and there are always new routes to follow, new ports to reach. We continue to navigate, guided by intuition but also by safe and reliable tools."

Born from the ideas of talented master designers and built with craftsmanship by qualified technicians, Uniesse Marine yachts meet all the needs, even the most sophisticated, of those who go to sea. The choice is wide and diversified, in terms of line, style and size. This ranges from the Motor Yacht, Open and Fly models to the Sport series. Every single Uniesse Marine model expresses the pleasure of taking to the sea. A sea of quality.
