leopard 45

745 000 € + VAT

Description

On the water it is "simply" an efficient and good example of a sailing catamaran, on board an example of space and ease of management. In fact, the Leopard 45 also boasts a particular study of the hulls and, above all, a careful and meticulous care of the interiors, the storage volumes and the ease of access to the on-board systems. With the two 45 horsepower engines and the sail drive transmission, this Leopard easily reaches the maximum speed at 9 knots and the cruising speed is about 8: the right pace to enjoy a real holiday on the water with reduced consumption. At full load, in fact, the total consumption is about 13 litres/hour while at medium load it drops to about 10. Sailing proves to be particularly fun, with a real wind of around 10 knots, the Leopard highlights its performance: with the apparent wind at 40° the log reaches 4.5 knots, at 60° it exceeds 6 which is reduced to 5 with the crosswind.

Navigation equipment:

Rudder angle indicator, Display, DSC vhf, Plotter with GPS antenna, Sonar.

Staging and technical:

Engine Alarm, Bilge Alarm, Spare shaft, Folding cleats, Twin Steering, Headlights fixed on the stem, Directional Spotlight, Crane, Courtesy Lights, Solar panels, Gangway, Automatic Bilge Pump, Manual Bilge Pump, Entry door, Teak Cockpit, Shorepower connector, Electric Windlass, Rod rigging, Outboard Engine Support Bracket, cockpit table, Living Room Foldable Table, Horn, Teak Deckhouse.

Domestic Facilities onboard:
