

# Description

In 1976 the US studio Sparkman & Stephens signed the plans for Alpa 27. The project was then resumed in 1990 by the Garda shipyard Zuanelli which transformed it into the Z 30, lengthening the hull by about 50 centimeters. Handcrafted, it is layered in hand-laminated fiberglass and the deck is in balsa sandwich. The lines are classic, with high bulwarks, pronounced bow momentum and a "heart" transom. It is a marine boat, upwind, with a fair displacement that makes it stable in rough seas.

Below deck there is the saloon with galley on the port side and a "C" shaped seat on the starboard side, a double cabin and the bathroom in the bow. To the left of the descent there is a fourth berth, while on the starboard side there is the chart table. Serviced in excellent condition ready at the buoy

Navigation equipment:

Rudder angle indicator, Plotter with GPS antenna.

Staging and technical:

Fume/Gas Detector, Engine Alarm, Bilge Alarm, Water pressure pump, Deck Shower, Teak Cockpit, Shorepower connector, Electric Windlass, swimming ladder, cockpit table, Living Room Foldable Table, Windex.

Domestic Facilities onboard:

12V Outlets, 220V Outlets, Manual Toilet.

Security equipment:
