nautor swan Shadow 001

2 900 € All Tax Included

Description

An amazing experience for your charter

Nautor Swan is known to the world of sailing for its high performance racing yachts and performance cruising Swans. Today, Nautor pushes its brand's limits by entering the motoryacht segment with a new powerboat, Swan Shadow.

Born from the passion that Leonardo Ferragamo has for the marine world, the Swan Shadow is broadening the range of vessels the Finnish yard offers to its customers, perfectly aligned with the core elements of its brand DNA: Performance, Quality, Elegance.

These core elements, and the values of design and innovation deeply rooted in Nautor's heritage, are also at the base of the concept of Swan Shadow, destined to become a timeless icon.

The new model is marking the completion of the Nautor Swan portfolio and product lineup with a multipurpose motoryacht concept able to meet Nautor's customer needs, and to reach a performance of up to 55 knots top speed.

"For so many years we've been thinking about launching a power boat, but we always resisted this temptation until we really felt we had something really special and unique to present. And this is what is happening with Swan Shadow. She is full of the ingredients we believe in, and we are confident that we are going to make an important statement in the power yacht segment". Leonardo Ferragamo, President.
