

SALE NEW

nautor swan Swan 88

Description

The Swan 88 is the first model fully developed from the outset to offer a hybrid electric propulsion option in partnership with Torqeedo and sees continuation of the cooperation of German Frers for Naval Architecture, Misa Poggi for Interior Design and Lucio Micheletti, Micheletti + Partners, for the exterior styling. With optional hybrid electric propulsion, this yacht offers a significant reduction in operating costs, while its distinctive exterior design and luxurious interior layout make it a classy choice for those seeking innovation, efficiency, and elegance.
