

SALE NEW

nautor swan Swan 98

Description

The history of Swan Maxis begins early on, a few years after the establishment of Nautor. An expert client asked for a 17 m Sparkman & Stephens. It was the year 1970 and the magnificent Swan 55 took shape. At that time, it was one of the largest yachts in the world to be produced in series and in fibreglass. Sixteen were built, in both yawl and sloop versions. The elegant and innovative design by Germán Frers, along with a spacious and versatile interior layout, makes the Swan 98 an excellent choice for those seeking a yacht with a harmonious combination of tradition and innovation.
