

SALE PRE OWNED

nautor swan Swan 65-106 miri 2.0

3 500 000 € + VAT

Description

Miri 2.0 is hull number 6 of the newest edition of the iconic Swan 65.

Constructed to some of the highest and most unique specifications in 2019 and 2020, Miri 2.0 has never been in use due to health reasons of the owner, resulting in her remaining at the Nautor Swan Yard in Jakobstad, stored inside since 2021.

The owner paid meticulous attention on the interior fit-out and styling, carefully selecting materials, resulting in a harmonious elegant interior.

Miri 2.0's metallic painted exterior is equally striking, painted in Verde Classico, belonging to the Lamborghini selection for custom cars, off-set with hull stripes in metallic bronze.

Featuring 360-degree windows and combining curved lines and multifaceted surfaces, she looks slim and elegant on the water. The aftwards position of the mast – that derives from the most up-to-date concepts in sail plan design – means that it has been integrated in the coachroof, with obvious advantages both in looks and in interior volumes.

In the interior, the day area features a five-meter-long saloon, a raised panoramic living area with dining to port and a lounge to starboard. Systems and tanks are recessed under the flooring in the deepest part of the hull yet are easily accessible; two steps down there is large C shaped galley, well organized and the navigation station. There is a large master cabin forward with an island bunk accessible from three sides, and two twin guest cabins aft, each with its own bathroom and separate shower.
