evo yachts Evo r6

Description

Evo R6 represents the perfect synthesis of elegance and functionality thanks to its modern design characterized by the spaciousness of the spaces.

This boat stands out for its electro-hydraulic "XTension" system which, thanks to the displacement of the side bulkheads, expands the cockpit and transforms it into a large beach area that includes a comfortable sundeck.

Behind the helm console, protected by a sturdy steel T-Top, there is a practical and comfortable dinette consisting of a chaise longue on the side of the dashboard, a table and a customisable galley.

Internally, the layout of the Evo R6 is also an invitation to conviviality and relaxation, in fact the below deck, accessible via elegant backlit plexiglass steps, includes a refined owner's cabin in the bow, a double bedroom in the stern, a crew cabin and three bathrooms, as well as a dinette with a sofa and a pouf that converts into a table.

STANDARD EQUIPMENT
