

SALE NEW

ranieri international Voyager 19 s

22 700 € + VAT

Description

It is part of the Open line with a new philosophy with taut lines, a modern design, with technical features in the choice of high quality materials and accessories. Within the Voyager line there is an important clientele, starting from those who approach the sea for the first time to those who are now experts and already owners of other boats.

The hull of the Voyager 19 S is wider and longer than the previous version, thus ensuring greater comfort on board.

We find the characteristic HIS (Hull Innovative System) step that allows you to reach planing speed more quickly, reducing engine effort and consumption.

Thanks to a hydrodynamic study, navigation in adverse sea conditions turns out to be soft with a stability and safety that is difficult to find on a boat of this size.

New black bottazzo, new fabric inserts, more comfortable stern seat, handrail fully fixed with investment casting bases, are the new details that position the Voyager 19 S at the top of its category.

STANDARD EQUIPMENT:

Bow sun cushion - Navigation lights - Bilge pump with automatic/manual control - Storage compartment - Redan HIS hull - White hull - Climbing ladder - Driver's seat with flap backrest - Complete set of stainless steel handrails - Battery disconnect - Standard external upholstery - Complete mechanical steering
