ranieri international Next 285 lx

110 600 € + VAT

Description

Ranieri Next 285 LX, just over 8 and a half meters, is identified by the acronym LX (an "ultra-luxury" product in the range) which, with its generous dimensions, has made it possible to obtain comfortable outdoor areas and a generous below deck, which in turn is divided into two separate cabins (for four people) and a toilet compartment.

Like its sisters in the NEXT range, the 285 LX has also been designed with the Fully-Developed Cockpit System by Ranieri International, a construction system that optimises production processes and makes it possible to maintain the maximum beam of the boat for about 2/3 of its length, thus optimising comfort on board.

The second-generation H.I.S. system has been adopted for the hull, while the assembly of the hull with the deck is done with the C.S.A. (Cockpit Shock Absorber) system.

Ranieri NEXT 285 LX is in essence certainly the best synthesis of elegance, comfort and extraordinary performance.
