greenline yachts 48 coupé

682 200 € + VAT

Description

Greenline 45 Coupé, a boat equipped with solar panels, allows you to use all the appliances both while cruising and at rest, without having to turn on a generator or connect to the ground socket. This means that there is no noise, vibration, emissions and no disturbance when the boat is at anchor.

The reclining counter aft area, a distinctive feature of Greenline, combines the cockpit and galley into one large social area. Thanks to the 360° panoramic view inside the salon there is plenty of natural light. The option for a wine cooler adds a perfect place for keeping good wine on board. The folding table offers the opportunity to transform the living room dining area into an extra sleeping place. The side door next to the helm station provides safer manoeuvring throughout the boat. The sliding roof option, on the other hand, provides additional ventilation.

The below deck consists of a double bedroom and two twins, with their own bathrooms, the layout of which can be modified according to the owner's preferences.

The hydraulic swim platform allows easy access and exit in the water.

OPTIONAL H-DRIVE: 2 x Yanmar 250hp + 2 x Electric Motors (3 x 11kWh Lithium Polymer Batteries)

STANDARD EQUIPMENT:

Hull colour Pure White (RAL 9010) + cabin colour Pure White (RAL 9010) - Layout of the saloon-sideboard including space stb - Rugana CREAM fabric upholstery -
