astondoa 66 fly

Description

Astondoa 66 Fly is a boat with a sporty soul in which the exploitation of the external and internal area is maximized. The spacious flybridge and four cabins ensure space and a high level of comfort for all guests.

The flybridge can be customized and is equipped with a helm station with a sunroof behind which there is an external dinette.

The main deck, on the other hand, includes, in addition to the helm station, a comfortable and functional galley which, in addition to the external aft area, creates a vast convivial environment. The boat can also be customized by adding sofas, tables, sun loungers and covered benches.

Equipped with advanced technology and first-class comfort, Astondoa 66 Fly is the perfect synthesis of style, power and sophistication in the field of luxury yachts.
