ranieri international Cayman 28 executive

105 300 € + VAT

Description

Cayman 28.0 Executive, just over 8.60 m long and 3.30 m wide, is a modern inflatable boat with generous volumes and can be trailered with deflated tubulars.

28.0 Executive has been built with the Fully – Developed Cockpit System by Ranieri International, a construction system that optimises production processes and makes it possible to create a monocoque deck. By adopting this system, the maximum beam of the boat has been maintained for about 2/3 of its length, thus increasing comfort on board.

Externally there is a large rear "C" shaped dinette, equipped with protective side shoulders, where it is possible to mount a table for six people. In the cockpit there is also a stand-up equipped with predispositions for inserting a sink, refrigerator and stove, and a large central console.

On the lower deck there is a cabin with a comfortable double bed and a comfortable separate bathroom.

The Cayman 28.0 Executive hull was fitted with the second-generation H.I.S. system. The hull is assembled with the deck with the C.S.A. (Cockpit Shock Absorber) system and the engine is available in a single or twin-engine outboard version.

STANDARD EQUIPMENT:

2 Console porthole – 4 Stainless steel cleats – Luxury cabin equipment – Gas extractor – Complete, anti-UV and water-resistant external cushions with closed
