**950 000 € All Tax Included**

## Description

The Pershing 76 is a high-performance luxury motor yacht that offers a unique sailing experience. The yacht is perfect for those who want an elegant and comfortable boat that can offer maximum fun.

### Locations

The external physiognomy is elongated and light, obtained with the Scrimp System fiberglass molding system. This system makes it possible to achieve a stiffer and lighter structure, which improves the performance and maneuverability of the yacht. The cockpit is large and spacious, with a dining table for eight and a sunbathing area. The aft swimming platform allows you to enjoy the sea in complete relaxation

### Interiors

The interior roominess is excellent and represents one of the three cornerstones of this boat. The structure of the upper saloon, illuminated by two large side windows, is divided into three areas: the technical area, the helm station and the living area. None of this is clearly separated, and all the zones blend harmoniously, in fact the lines are curved and free of edges. Thanks to the two side doors that open in the gangways, you can go to the bow without going through the cockpit. Going below deck, in the aft area we find ourselves in the L-shaped galley, equipped with all the appliances and storage spaces for the galley. From here you can access the crew area and the engine room. Further forward, on the other hand, through the independent staircase, you can access the sleeping area. Thanks to this arrangement, any noises or smells that may
