

SALE NEW

mandayachts S07

Description

The S07 Spider represents a real revolution in the world of yachts. The collaboration between Ceccarelli Yachtdesign, Mandayacht and Enrico Esposito has resulted in a boat that not only amazes with its innovative design, but also offers a unique and unprecedented sailing experience.

Stepping aboard the S07 is like stepping into another dimension. The hard top creates a bright and airy environment, similar to that of a flybridge, but with the feeling of being even closer to the sea. The adjustable side windows allow you to control the ventilation and enjoy a breathtaking panoramic view.

The beach club is a true masterpiece of design and functionality. Large and spacious, it offers the feeling of being on a much larger yacht. The equally spacious bow can accommodate a large sundeck or jacuzzi, making it the perfect corner to relax and enjoy the sun.

The S07 is not just a simple yacht, it is a real experience. It masterfully combines style, comfort and performance, offering a unique feeling of freedom and escape.

If you are looking for a yacht that is innovative, elegant and performing at the same time, the S07 is the ideal choice for you. Get ready to experience a sensation you've never experienced before!

In addition to what has already been said, here are some other aspects that make the S07 a truly unique yacht:

- Highest quality materials used for construction and interior, ensuring durability,
