2 000 000 € All Tax Included

## Description

The Dominator 860 boasts an elegant and sophisticated design, the result of the collaboration between the design studio of Dominator Yachts and the naval architect Alberto Mancini. The flowing, sinuous lines of the hull blend perfectly with the sleek superstructure, creating a dynamic and eye-catching profile. The great attention to detail is evident in every element, from the large side windows that flood the interior with natural light, to the imposing hardtop that offers shelter from the sun and the elements.

**Hull:** The hull of the Dominator 860 is constructed of fiberglass with carbon reinforcements, using vacuum infusion technology to ensure maximum lightness and strength. The deep-V hull ensures excellent stability and seaworthiness, even in rough sea conditions.

**Cockpit:** The cockpit is a very livable area, ideal for relaxing in the sun or for outdoor dining. The spacious L-shaped dinette can comfortably accommodate up to 12 people, while the wet bar with barbecue and fridge offers everything you need to prepare delicious meals on board. The stern platform, equipped with a retractable ladder, facilitates access to the sea.

**Flybridge:** The flybridge is a great place to enjoy the panoramic views and sunshine. The large sunbathing area is equipped with chaise longues and sofas, while the helm station offers excellent visibility. A second bar cabinet and a barbecue complete the flybridge facilities.

**Performance:**

The Dominator 860 is powered by two Caterpillar C32 engines, each with 1836 CV.
