Description

The Grandezza 30 CA is a new luxury sport cruiser that complements the collection of the Finnish shipyard Grandezza, offering an elegant and comfortable cruising experience. With an imposing design, excellent driving characteristics and a refined, functional interior, the 30 CA is positioned as a benchmark model in its class. The dynamic hull design of the 30 CA ensures excellent driving characteristics, stability and handling in all sea conditions. The hull is made of fiberglass with vacuum infusion, a technique that guarantees lightness, rigidity and strength.

The exterior lines of the 30 CA are fluid and sinuous, with a slender profile that expresses elegance and dynamism. The wide deckhouse offers excellent visibility and a pleasant sense of openness. The cockpit is spacious and well-equipped, with seating to relax and enjoy the views. The opening hard top provides shelter from the sun and the elements, while the stern platform facilitates access to the sea. The 30 CA is equipped with a number of state-of-the-art technologies, including a GPS navigation system, a home automation system, and an audio-visual entertainment system.

The interior of the 30 CA is characterized by a modern and refined design, with fine wood finishes and high-quality fabrics. The layout includes a full galley, a dinette with an L-shaped sofa, an ergonomic helm station and two separate cabins. The master cabin is equipped with a double bed, an en-suite bathroom and a wardrobe. The second cabin can accommodate two people and is served by a second bathroom.
