2 590 000 € All Tax Included

Description

Timeless elegance, unparalleled comfort and excellent performance: the Ferretti 670 embodies all the characteristics that define an exceptional luxury yacht. Launched in 2022, this jewel of Italian boating continues to fascinate with its innovative design and impeccable attention to detail. In the name of an intelligent evolution, first of all the excellent optimization of spaces, interior and exterior, which ensures the owner and his guests the perfect mix of coexistence and independence. Ferretti Yachts 670 is in fact a 67-foot (20.24 meters) that installs solutions typical of a larger yacht. This philosophy is evident already by looking at the layout: the standard version has 3 cabins of considerable size on the lower deck, with an innovative layout of the owner's cabin, equipped with a large area in front with a desk, which has now become iconic. Ferretti Yachts 670 is the gift that the shipyard has given to itself and to the nautical world to sumptuously celebrate 2018, the year of its 50th anniversary, and represents a tribute to its long tradition and its commitment to the pursuit of excellence.

The external profile of the Ferretti 670 is characterized by sporty and elegant lines that blend perfectly with the sea. The exterior design is the result of the collaboration between the Ferretti Group team and architect Filippo Salvetti, while the interiors are the work of the Group's architects and designers.

The Ferretti 670 is not just a simple yacht, but a real jewel of the sea that offers an unparalleled sailing experience. Every detail is designed to ensure maximum comfort, luxury and pleasure for guests, making every trip an unforgettable experience.
