Description

Built by the renowned Dutch shipyard Feadship in 1983 and subjected to numerous refits, the last of which was in 2010, this luxury superyacht is an example of elegance and high-level engineering. With a length of 55.70 meters and a width of 8.66 meters, the yacht represents a perfect balance between performance and refined design, the result of the work of F. De Voogt.

Construction and Exterior Design

Made with a steel hull and aluminum superstructure, the yacht offers strength and lightness, ensuring safe and stable sailing. Teak-clad decks add a classic and elegant touch. The stern extension, carried out during the 2010 refit, improved entertainment capabilities and on-board functionality, integrating a tender garage and hydraulic platform.

Performance

Equipped with two Caterpillar D399TA diesel engines of 814 kW each, the yacht is capable of reaching a maximum speed of 16 knots and maintaining a cruising speed of 14 knots. With a range of 3,500 nautical miles at 12 knots, it is ideal for long crossings, while offering remarkable fuel efficiency.

Systems and Equipment

On-board technical equipment includes Zero Speed stabilizers, which ensure comfort even in rough sea conditions, a 55 kW bow thruster for precise maneuvers and an advanced navigation and communication system, which includes Furuno radar, GPS and a high-quality internet connection thanks to the
