cantieri di pisa Akhir 30s

900 000 € + VAT

Description

Akhir 30S is built by the renowned Cantieri shipyard in Pisa. This luxury yacht, launched in 1992, is an impressive boat of 31 meters in total length and 7.5 meters in maximum width. Built with high-quality materials, the boat has a GRP (fiberglass-reinforced polymer) hull, ensuring strength and durability. Propulsion is provided by two 2650 HP MTU engines, capable of propelling the boat to a cruising speed of 22.5 knots and a maximum speed of 25 knots. The boat has a fuel capacity of 14,000 liters and can stow up to 3,000 liters of water, making it suitable for long sailings.

The yacht has recently completed huge refit works: the engines have been completely renewed by MTU engineers (new turbo, new valves, cooler), the generators have been completely renewed and the owner has invested heavily in new equipment. The boat is absolutely ready to use and in perfect condition.

The Akhir 30S offers luxurious accommodations to accommodate its passengers comfortably. The interior is designed for maximum comfort and functionality, with 4 guest cabins, each with an en-suite bathroom, ensuring privacy and convenience. In addition to these, there are 3 cabins for the crew, capable of accommodating up to 5 members, served by 2 dedicated bathrooms.

The boat's interiors include a variety of modern equipment for comfort and entertainment:

- Living Area: In the main salon there is a large 66-inch Samsung TV, perfect for moments of relaxation and entertainment.
