Description

XBOAT ref :5926.The Tricat 25 Evolution sailboat is a dayboat and cruiser trimaran, built by the Tricat Naval Shipyard in France.

This sailboat has two saber daggerboards, foldable afloat.

Its folded width is 2.52 meters which is very interesting for transport and for space in port.

It is rigged as a fractional Sloop.

It was designed by naval architect Antoine Houdet.

Its maximum draft is 1.20 m.

The weight, when traveling lightly, is 780 kilos. The average armament, ready to sail, is 112 kilos.

It can be transported on a trailer thanks to its road width and its low weight. More details and pictures on xboat.uk
