

SALE NEW

vandutch 56

Description

GET EVERYONE ON BOARD Getting on board the new VanDutch 56 is a desire to escape from the daily routine, a desire to be seduced by the charm of the sea, taking advantage of the large volumes on deck to relax in the lounge areas and move safely between the generous outdoor spaces of the boat. The project of the VanDutch 56 has been conceived to allow the owners to live every moment open-air in complete autonomy, but also to share the pleasure of marine life together with family and friends. **OPEN SPACE OR PRIVACY GUARANTEED** The interior of the VanDutch 56 has a dual layout. The "lounge" layout allows experiencing the boat as a large open space, where a cozy sofa with its own table can be transformed into a bed for the occasion. In the stern, on the port side, there is a linear galley opposite the L-shaped sofa. The "cabin" version, instead, allows having a master cabin with a double bed at the bow. This second layout proposes the same solution with an L-shaped sofa and linear galley, with the possibility to add a second cabin with a double bed. **CONTROL MADE EASY** The on-board instrumentation bears the prestigious signature of Garmin Marine with EmpireBus technology. The control of the VanDutch 56 is from a single console that includes two 16-inch displays from which you can coordinate the entire home automation of the boat. Design & Naval Architecture: Mulder Design.
