jokerboat Clubman 24

Description

The Clubman 24 was born above all as a pleasure boat. The large spaces on deck, designed to accommodate six people, are generous enough to accommodate up to a maximum of sixteen guests. The manageable size of this boat, equal to 7.5 meters (24 feet), makes it particularly attractive for boaters as it guarantees great ease of storage during the winter and simplicity of mooring in port after a long day at sea.

However, the Clubman 24 is a very versatile inflatable boat, which is why it is also popular as a tender on large yachts or as a water taxi service. Reduced in size compared to its "big brother" Clubman 28, this boat is quick and easy to put in the water and to pick up in the garage or on deck. Without a rollbar, its height is quite low, making its management even easier with the help of the crane.

The spaces of this pleasure boat are designed to accommodate a family who wants to spend a day at sea in complete relaxation and full fun for everyone.
