

Description

For sale in stock Seabob F5 / F5S / F5 SR Low weight is one of the special features of the SEABOB F5. It is not the only one. The E-Jet Power System in the SEABOB F5 allows you to control the power at four levels. This guarantees carefree fun and an intense boating experience. There's more. Excellent performance of the craft in combination with the low weight to power ratio provides special dynamics in the water. The SEABOB F5 boasts sublime sailing characteristics. Together with its handy handling and easy handling, these make the craft suitable for varied use. On the water, the SEABOB F5 is in its element in every respect. Thanks to the unlimited possibilities, you can really use the craft for everything. Not only is it excellent for sailing, but it is also a great tool for diving. Due to its great maneuverability, the SEABOB F5 can also be used in a swimming pool. Available in various colors. We deliver your Seabob to you free of charge anywhere in Europe. We will be happy to tell you much more about it. Kind regards, Orange Yachting
