Description

The **Asmarine 800 Open** with **Suzuki DF300** engine represents a perfect combination of elegance and performance for boating enthusiasts looking for a versatile and powerful boat. This model, which is about 8 meters long, is perfect for those who want to sail in style and comfort, whether for day trips or longer excursions. With the open design, the space on board is exploited to the maximum, offering areas to relax in the sun and spaces for onboard activities, such as fishing or snorkeling. The open configuration also ensures ease of movement and a panoramic view of the sea.

Suzuki DF300 engine: Power and Reliability

The Suzuki DF300, with its 300 horsepower, is one of the most popular outboard engines in the industry for its combination of power, fuel efficiency and advanced technology. This model offers excellent performance even in the most demanding conditions, allowing the boat to reach high speeds with great ease. In addition, the electronic fuel injection system ensures smooth acceleration and quick response, while the Suzuki Lean Burn Control System optimizes fuel consumption, making boating more economical and environmentally friendly.

Impeccable condition: used in fresh water only

A distinctive element of this **Asmarine 800 Open** is the fact that it has been used **exclusively in fresh water** and for **very few hours**, which means that both the hull and the engine are in almost mint condition. The absence of use in salt water guarantees a longer longevity of the components, minimizing the risk of corrosion.
